The Enter Gauja region is like a great collection of stories and legends to experience and take back home. These stories consist of various elements:

- Heritage sites
- Nature elements
- Elements from legends
- Modern elements

All these events are tied together by the River Gauja...and a necklace can be made by tying both of its ends together. The story necklace with charms will help you tell others about your adventures and the length and type of your trip.

- The period of the campaign "Create the Story of your Adventure" lasts from 01.05.2016 till 01.09.2016 or while the necklaces and campaign charms are available to the campaign participants.
- The necklaces with the "Enter Gauja" charm are available at the city and municipality Tourism Information Centres of Gauja National Park.
- The campaign charms can be acquired from the campaign partners in the territory of the Gauja National Park by using services offered by them and presenting the campaign necklace with the "Enter Gauja" charm.
- One charm can be acquired for every receipt of at least 10 EUR in value.
- Each campaign partner can only give out the charm associated with their service.
- The campaign necklace and charm count is limited.
- The campaign charms can only be acquired at the moment of making a purchase. Campaign charms are not given out for receipts that are presented after making a purchase.
- The campaign charms are given out upon request.

## VISIT THE LAND

where the history, culture and nature allow you to enjoy the primordial with your own eyes, ears and hands. Each moment and each experience at Gauja National Park is embraced by nature. Besides, this is not an ordinary park. It is a park+ where each encounter can become a new experience, enriching it through play, study and challenges.

The variety of adventures allows each traveller to choose their own pace and scenario. Like a fern that unfolds its fan of leaves while blooming, the River Gauja leads us deeper into the mysterious and untouched world of nature, where every tree has its own story about ancient occurrences and legends. Time itself does not flow straight here, it flows in curves full of rapids just like the River Gauja, merging the present with the tales of the old times that have left their unique mark on the scenery and the people.

All that is left to do is to breathe in the misty morning fog, touch the moist linden trunk and lose oneself in the forked paths of legends, where the stems of grass are vibrating with life, souls dwell in the breeze, and boulders bloom in ravines...
