## GAUJA NATIONAL PARK

Enter the Gauja National Park – place, where the history, culture and nature allow you to enjoy the primordial with your own eyes, ears and hands. Each moment and each experience at the Gauja National Park is embraced by nature. Besides, this is not an ordinary park, it is park, where each encounter can become a new experience, enriching it through play, study and challenges. Variety of adventures allows each traveller to choose one's own place and scenario.

Like a fern that unfolds its fan of leaves while blooming, the river Gauja leads us deeper into the mysterious and untouched world of the nature, where every tree has its own story about ancient occurrences and legends. The time itself does not flow straight here, it flows in curves full of rapids just like the river Gauja, merging the present with the tales of the old times that have left their unique mark in the scenery and the people. All that is left to do is to breathe the misty morning fog, touch the moist landed trunk and loose oneself in the forked paths of legends, where the stems of grass are vibrating with life, souls dwell in the breeze and boulders bloom in ravines... ENTER GAUJA

### NATURE

The biggest national park in Latvia was established more than 40 years ago. Gauja National park protects the rich nature of the ancient Gauja River valley and its surrounding areas as well as the vast diversity of plant, bird and insect species found here.

Nature enthusiasts can observe one of these rare species at the Gauja NP:  
 Tree lungwort *Lobaria pulmonaria*  
 Luminescent moss *Schistostega pennata*  
 Northern bat *Eptesicus nilssonii*  
 Common kingfisher *Alcedo atthis*  
 Perennial honesty *Lunaria rediviva*

### GAUJA VALLEY

The origins of the ancient Gauja River valley go back more than 350 million years, but its current ravine-ridden terrain was moulded by the glacier meltwater at the end of the Ice Age. The Gauja, which is the longest river in Latvia (452 km), winds through the national park.

### HISTORY

The river once served as a trading route, and the Livonians built their settlements on its banks. Strong stone castles, which were enclosed by steep slopes and deep valleys, were built in the 13th century. The cities and the social and cultural life grew around these castles.

### NOWADAYS

Today, the park is a place where legends of the past live alongside modern and cosy guest houses, restaurants and leisure spots. Here you can enjoy the aura of antiquity in old castles, receive a burst of energy at one of the ancient sacred places or experience the healing properties of the springs. You can also touch trees planted by kings, hear your voice echoing off sandstone rocks, or let the nature trails carry you off into rich forests. All of this should be enjoyed slowly, letting the taste, smell and colours introduce you to the rhythm of the local life. This is best done by hiking, riding a bicycle or a horse, or even taking a boat down the gentle stream of the Gauja River.

### PLACODERMS – THE WITNESSES OF THE PAST

During the Devonian period (400 million years ago) a warm and shallow sea spread across the current territory of the Gauja NP and at the bottom of it dolomite and sandstone were forming. The sea was home to the placoderms and a multitude of fossils have preserved until today. There are still places in the park today where intact placoderm bodies can be found in the Devonian period strata.

## GAUJA TRAVEL AROUND

### Train

The railway line Riga – Valka/Valga goes through the Gauja NP ensuring a convenient and regular opportunity to travel between Riga, Sigulda, Cēsis and Valmiera throughout the whole day. There are special bicycle racks on the trains for transporting bicycles.  
**Get to know train schedules and buy tickets: [www.mobilly.lv](http://www.mobilly.lv)**

### Bus

All of the territory of the Gauja NP can be easily reached by buses which run from Riga to Sigulda, Cēsis and Valmiera approximately once an hour. Travelling by bus between populated places within the Gauja NP has to be planned in accordance with the bus schedules.  
**Get to know bus schedules and buy tickets: <http://www.1188.lv/transport>**

### Bicycle

The starting point of a picturesque bicycle ride can be the train station. There are countless bicycle routes within the Gauja NP which will allow you to explore

the rich nature, history and culture of the region. We suggest you avoid the busy highways A2 and A3 and take backroads and forest roads instead.

### Boat

Whenever Gauja is ice free, many tourists take the opportunity to go boating in it in inflatable boats, canoes or on rafts. Amata and Brasla are also suitable for boating.

### Car

The Gauja NP is located between highways A2 and A3 and has a dense network of roads and parking lots. The majority of the tourism objects are easily accessible by car.

### 1 | Sigulda tour in Electromobiles

Excursions in electromobiles with a guide will let you see the most beautiful places of Sigulda in an attractive and environment-friendly way.  
**Sigulda, ph. +371 26022919, [www.impresso.lv](http://www.impresso.lv)**

### 2 | Gauja tram

The only tram on the Gauja in Latvia offers rides and excursions on the water. The tram has offers for both newly-weds and students, as well as an opportunity to organize birthday parties. The Gauja tram is open to visitors in summertime only.  
**Valmiera, ph. +371 27828221, [www.ezi.lv](http://www.ezi.lv) GPS: 57.5380, 25.4280**

### 3 | Līgatne crossing

The crossing, which is operated by the power of the stream, is a monument of technology history in Latvia and it is also the only Gauja crossing. The crossing was built after World War II during which the bridge across the Gauja was demolished.

## SPAWNING OF SALMON-LIKE FISH IN GAUJA NATIONAL PARK

The “central artery” of Gauja National Park is the River Gauja with many tributaries. Many of these are rapid and swift, with clean, unpolluted water enriched with water coming from many springs, and therefore they are suitable for spawning of salmon-like fish — the Atlantic salmon (*Salmo salar*), brown trout (*Salmo trutta*), and stream trout (*Salmo trutta fario*). After a longer trip, the salmon-like fish travel in autumn to their birth places, and thus this is the time best suitable not only to watch the fish, but also enjoy what is happening on the riverside. A salmon watcher is a sort of a ranger, who has come to study the natural environment and create a positive effect from the presence of a human being.

**Time to go:**  
Late October, beginning of November.

**Best places to watch fish**  
The success of spotting salmon-like fish depends on the water table in rivers, the clarity of water, and weather conditions. If there was heavy rain prior to or during the migration, the water in Gauja and its tributaries will be mixed up with sand and loam particles which will make it dark and non-transparent. It will be hard to see the fish in such case. Other more suitable places might be an option — natural or man-made obstacles: rapids, waterfalls, low dams, or fish ladder, which the salmon-like fish have to pass by jumping over these!

### Bridge over the River Gauja in Sigulda

A site easy to access — approximately 2 km from the centre of Sigulda. A popular place to watch salmon..

### Pedestrian bridge over the River Gauja in Sigulda

The walk to the bridge (2 km from Kaķīši in Sigulda) can be combined with a walk along the banks of the primeval valley of the River Gauja.

### Trail aimed at watching fish spawning in Līgatne

Established in 2011 with the support of the European Fisheries Fund in the centre of Līgatne, between Ānfabrika Cliffs and Lustūzis (opposite of Līgatne Tourism Information Centre); around 500 m long. Fish ladder is constructed at the former mill dam in Līgatne.

### Kārļi Dam

On the River Amata. Fish ladder is established next to it. The dam can be reached by road leading from Kārļi or Ieriķi, or on foot along the Amata trail.

### Nature trail of the River Ieriķupīte

The small River Grūba (Ieriķupīte, Melderupīte) flows into a deep ravine behind the road A2, where on a short section of the river four waterfalls are located — 2.3 m, 0.5 m, 1.7 m, and 0.8 m high, which consist of dolomite rock outcrops from Pļaviņas suite.

### River Strīķupīte

Around 3 km long section of the river between Jenči–Jāņmuiža road and the mouth of the River Strīķupīte with the River Gauja.

### Bridge over the River Gauja in Cēsis

3.5 km off the centre of Cēsis.

### Bridge over the River Gauja in Rāmnieki

Easy accessible from Cēsis. The river is shallow in this place and fish might be clearly spotted under suitable circumstances.

### River Vaive

The best places to watch salmon are downstream — in the section where the river mouths the River Rauna till Vaive Mill Dam.

### Bridge over the River Gauja in Valmiera

Located in the centre of the city (Cēsu iela), near Vidzeme University College.

## MUSHROOMS OF GAUJA NATIONAL PARK

There are more than 4000 various mushroom species in Latvia. Mushrooms are extraordinary organisms combining the features of plants and animals. Not for nothing they have their own fungi kingdom. Mushrooms vary very much in terms of colours and shapes, and therefore are interesting to watch. There is a huge biodiversity in Gauja National Park — dry and wet forests, forests of slopes, secular trees, old and decayed trees, deadwood, former manor parks, etc., which create a rich variety of mushroom habitats. During the respective time, the number of spotted species and shapes will be impressive! A well-prepared guide is needed to complete this “mission” with success.

### Dress code and tools:

- suitable clothes for various weather conditions and types of forests (including wet forests);
- rubber boots;
- basket and knife;
- mushroom identifier;
- magnifier;
- notebook;
- smartphone to post your special moments on social networks or make use of mobile applications — guides in the identification of mushrooms;
- navigation device in order not to get lost.

### Time to go:

Mushrooms are spotted during the whole year (also in winter), but the best time is July–September demonstrating the largest variety of species.

### Most interest places to watch mushrooms

#### Forests of Silciems

1–1.5 —km range around the Silciems Railway Station is among the most popular place to go for mushroom picking in the Greater Riga Area. Here you might find edible mushrooms popular in Latvia — various species of chanterelles, russulas, king boletes and other boletes, woolly milkcaps, orange milkcaps, gypsy mushrooms, etc. Most interesting is the chestnut bolete (*Gyroporus castaneus*), lurid bolete (*Boletus luridus*), edible polypore — sheep polypore (*Albatrellus ovinus*); an edible mushroom popular in Scandinavia) and the coral mushroom (*Ramaria aurea*).

#### Forests of Lielstraupe

A large forest 1–2 km southward, south-westward of Lielstraupe, where the largest of cap mushrooms in Latvia can be found — parasol mushroom (*Macrolepiota procera*). It is edible uncooked, or fried like pork chop. Wide range of cap mushrooms, including edible mushrooms. The car can be parked in the centre of Lielstraupe.

### Vicinity of Zvārte Rock

Excellent landscapes and ideal places to pick mushrooms along the banks of Amata, heading along the nature trail from Zvārte Rock to Veclauči Bridge (~4 km). The medical mushroom chaga (*Inonotus obliquus*), as well as alder bracket (*Inonotus radiatus*) can be found here. The alder bracket has surface of changing colour depending on the viewpoint angle. Various mushrooms with a decaying effect are found on fallen trees.

### Ungurmuiža Park

Notable due to the old oaks. Interesting polypores are growing on the trunks of fallen oaks. One might be lucky and spot the bright-coloured polypore *Hapalopilus croceus*, as well as other mushrooms related to oaks in autumns. Park your car near Ungurmuiža Manor.

### Vicinity of Lake Vaidava

Wooded area (within a range of 1 km) eastward of Lake Vaidavas, and slopes of the lake shores. Here you might find the summer bolete. Park your car near in the parking lot near the swimming place of Lake Vaidava.

## BIRD WATCHING IN GAUJA NATIONAL PARK

Bird fauna in Gauja National Park in terms of nature tourism is appreciated both by foreign and local tourists. The largest nesting population of grey wagtail in Latvia is just one example. Although these are just few pairs, in terms of access and concentration it is the safest place in Latvia to watch this species during the nesting period. The forests of slopes with old deciduous trees attract less common species of woodpeckers (white-backed woodpecker, three-toed woodpecker, black woodpecker, middle spotted woodpecker). Relatively often spotted are the

elsewhere rare greenish warbler, red-breasted flycatcher and locally common hazel grouse. Ural owl has started nesting in the park, and the smallest owl of Latvia — pygmy owl — is also seen more often. Many corn-crakes and some species of warblers, which are not common in Western Europe (river warbler, Blyth's reed warbler), are found in the riverside meadows of Gauja. Rivers which are not covered with ice during the winter are home to the wintering white-throated dippers. Similarly, kingfisher is seen more often than elsewhere on the small rivers and

ice-free rivers, oxbow lakes, or larger areas where the springs come out of the earth. Significant habitats are the parks and alleys of former manors attracting much more common and thus easily spotted species of birds (woodpeckers, tawny owl). During the migration period, the migratory birds like stopping over at former or present quarries (in Lode, Bāle, Cēsis) and the largest lake of the park — Lake Ungurs. Meadows adjoining to the Suda Bog located outside of the reserve area are a significant place where the cranes gather in autumn.

### “Baltic Wildlife”, bird and animal observation tours

Animal watching at Gauja National Park is a great opportunity to get to know a nature full of life and its inhabitants. Explore the numerous bird species and their voices. When going on observation tours you might possibly see moose, deer, wild boar, wolf, fox and beaver behaviour in the wild. Go out into nature and explore its simplicity, savagery and beauty!

- One day
- Asphalt (in town), forest roads, paths, wooden stairs on the steep banks of the Gauja valley and its tributaries
- Sigulda Bus / Train Station
- None on site
- ~ 15 km
- Moderate/difficult

### From Līgatne to Līgatne nature trails

Suitable for those looking for alternative routes to get from Līgatne to Līgatne nature trails while getting to know the landscapes of the Gauja riversides with the beautiful Katrīna Rock and Gūdas Cliffs en route

Līgatne TIC – Līgatne Ferry Crossing – Līgatne Nature Trails – Līgatne TIC

- April – October
- Easy
- ~ 13 km (excluding Līgatne Nature Trails)
- Including visit to Līgatne nature trails — one day
- Asphalt, forest roads, paths, gravel roads
- Līgatne TIC
- None on site

### Cēsis – Ērģeļu (Ērgļu) Cliffs – Jāņmuiža

Suitable for travellers interested not only in the towns, but also in magnificent landscapes and one of the most monolith sandstone cliff walls in the Baltics — the Ērģeļu Cliffs. Destinations are easily linked with public transportation.

Cēsis Railway Station – Ērģeļu Cliffs – Rāmnieki – Jāņmuiža

## HIKING ROUTES

### Green Valmiera

Suitable for hikers or Nordic walking fans aiming to study the "alternative Valmiera", since the route leads through "green areas".

Section 1: St Simon's Church of Valmiera – Livonian Order Castle Ruins – Valmiera Recreation park – Steep banks of the River Gauja – Lake Dzirnava – Mound Karātavu – Vecpuīši Park – St Simon's Church of Valmiera.

Section 2: the route from Lake Dzirnava along the River Rātsupīte, can be continued to Valmiermuiža Park and Valmiermuiža Brewery (+4 km back and forth).

☀ April – October

📏 Section 1: around 7 km;  
Section 2: 4 km

🕒 3–5 hours including sightseeing

🛤 Asphalt, sidewalks, gravel road, forest paths

📍 St Simon's Church of Valmiera or Valmiermuiža Brewery, if the route is extended.

📍 None on site

### From Līgatne to Cēsis

Suitable for active hikers or cyclists interested in nature, heritage and history. This is a trip through the most impressive primeval valley of a river in the Baltics with lots of sandstone outcrops on the slopes of ravines of the River Gauja and its tributaries from the Devonian Period.

Līgatne TIC – Skaļupes – Rakši – "Ozolkalns" – Cēsis Castle Complex – Cēsis TIC

☀ April – September

📏 ~ 28 km

🕒 10 h on foot, 4–5 h by bicycle

🛤 Moderate

🛤 Līgatne – Skaļupe and Cēsis – asphalt; gravel roads and unpaved roads elsewhere

📍 Līgatne TIC

📍 Cēsis TIC

📍 None on site

### Liepa, Līču–Laņģu cliffs

The route leads along natural, few-known trails up to Līču–Laņģu Cliffs located in the middle of the forest, and introducing to Lode Clay-pit. The route shall be taken together with a guide.

Lielā Ellīte – Lode Railway Station – "Lode" – Līču–Laņģu Cliffs – Lielā Ellīte.

☀ June – October

📏 ~ 9 km

🕒 3–4 h

🛤 Easy

🛤 Asphalt, gravel road, forest paths, off-road

📍 Car parking lot at Lielā Ellīte, Liepa

📍 None on site. Only guided tours

### River Amata. Rocks and cliffs of the river

For travellers not afraid of large and frequent terrain differences, and also for those wishing to see and enjoy the beautiful banks of primeval valley of the River Amata while heading along remote forest paths. The path leading along the right bank travels through the upper and lower part of the valley, and therefore at some places difference of more than 40 m in height is experienced. This is sort of a geo-tourism route with an insight of dolomite and sandstone outcrops from the Devonian Period which are found in the primeval valley of the River Amata shaped by the glacier.

Amatciems – Melturi – Kārļi – Zvārte Rock – Veclauči Bridge

☀ April – October

🕒 8–11 h, where:  
1) Amatciems – Melturi 2 h,  
2) Melturi – Kārļi 3 h,  
3) Kārļi – Zvārte Rock 4 h,  
4) Zvārte Rock – Veclauči Bridge 1–2 h

📏 ~21.5 km. The route can be made by combining any of its sections:  
1) Amatciems – Melturi 5 km,  
2) Melturi – Kārļi 3.5 km,  
3) Kārļi – Zvārte Rock 9.5 km,  
4) Zvārte Rock – Veclauči Bridge 3.5 km

🛤 Difficult

🛤 Mainly forest paths; gravel road in section Amatciems – Melturi

📍 In Amatciems or at the road Rīga–Veclaicene (A2)

📍 Veclauču Bridge, destination for canoe-riders "Amata"

📍 Orange and bright red blazes – diamonds on tree trunks (in the section from Melturi to Veclauču Bridge)

### Cēsis – Valmiera

The route runs alongside the primeval valley of the River Gauja linking two historic centres – Cēsis and Valmiera. The section between Rāmnieki and Valmiera leads pre-dominantly along remote forest roads and paths offering excellent places to watch wildlife in Gauja National Park, but hiking there is quite strenuous.

Cēsis: Cēsis Railway Station – Ērgļu Cliffs – Rāmnieki – Sietīņezis Cliff – Valmiera

☀ End of April – middle of September

📏 ~ 45 km

🕒 For hikers – 2 days (Day 1 Cēsis – Sietīņezis Cliff – 25 km;  
Day 2 Sietīņezis Cliff – Valmiera – 20 km), for cyclists – 1 day

🛤 Moderate

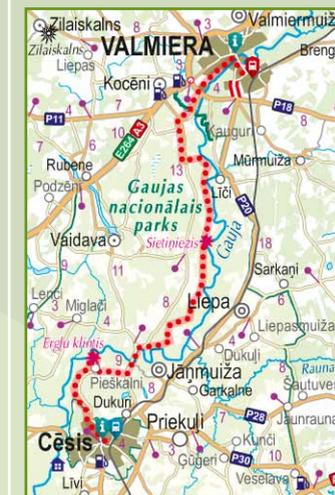

🛤 Asphalt (smallest part of the route), gravel roads, forest roads and paths

📍 Cēsis Railway Station or Bus Station

📍 Valmiera Railway Station or Bus Station

📍 Wooden markings with the symbol of a bicycle, orange blazes on trees

## WATER ROUTES

### Gauja River

Gauja is the most popular water tourism river in Latvia. The main tourist magnets are the beautiful river banks rich in sandstone outcrops, easy accessibility of the river, dense network of accommodation sites for water tourists, the nature of the river (suitable for various paddlers), long water tourism traditions, and the status of a national park. In this section, the river flows through its primeval valley which is among the most impressive Baltic terrain forms.

- 1) Valmiera – Cēsis; 2) Cēsis – Līgatne

2) Līgatne ferry crossing;  
3) Sigulda bridge;  
4) "Rāmkalni"

### Brasla River

Although the river is classified as "small", this section of the river does not have the typical obstacles the small rivers have — trees fallen over the river, stacks of trees and branches in the river, and traces of beavers. Faster rapids are experienced in the section downstream of the water power plant till its mouth with the River Gauja. When the water level is higher, the shallow places, stones, and islets are below the water; however, in case of lower water level at some places these may hinder the paddlers and one shall be ready to step out and push the canoe. The trip on Brasla is enriched with the many sandstone outcrops.

- 1) Plācis – A3 bridge; 2) A3 bridge – Brasla River estuary in Gauja River

☀️ Spring, autumn

## ENTER NATURE

### 5 | Gūtmaņala (Gūtmanis Cave)

The walls of the biggest cave and the oldest tourism object in the Baltics have witnessed many events and bear inscriptions from the 17th century. A man called "gut man" by the local people used the water for healing, thus the cave was named after him. This is also the place of origin of the beautiful story about Rose of Turaida who used to secretly meet up with her beloved Viktors here.

Sigulda County, ph. +371 67971335  
GPS: 57.1761, 24.8426

### 6 | Līgatne nature trails

The nature trails will take you within a few meters of various forest animals and birds which live in enclosures in their natural habitat. These animals have been brought here from all over Latvia and most of them were either injured or domesticated baby animals which would not have been able to survive or find food without people's care. Līgatne, ph. +371 64153169, 29189707, [www.visitligatne.lv](http://www.visitligatne.lv) GPS: 57.2484, 25.0154

### 7 | Kvēpenes dižozols (Kvēpene Noble Oak)

The biggest tree in the Gauja NP and the tree with one of the densest foliage in Latvia. This tree has a circumference of 6 meters and a height of 20 meters. It grows on the right bank of the Gauja River.

Raiskums Parish, Pārgauja County, GPS: 57.2769, 25.1813

### 8 | Zilaiskalns (Blue Mountain)

It is an ancient sacred place, a medieval burial ground and a protected area. People tell a certain story of the special properties of Zilaiskalns: when the spring with healing properties for eye illnesses on top of Zilaiskalns dried out, people started using the sand for healing instead. Zilaiskalns is thought to

have been a meeting place for witches, therefore people come here to foretell the future and sacrifice. Kocēni County, GPS: 57.5485, 24.6915

### 9 | Sietiņezis (Strainer Rock)

The largest white sandstone outcrop in Latvia has many artistic niches, cavities and caves. It is believed that the rock has gotten its name from the bee caves which look like little holes in its surface, thus, resembling a strainer. However, its largest protrusion Velna papēdis [The Devil's Heel] carries the name of the devil himself. Kocēni County, GPS: 57.4305, 25.3829

### 10 | Kūķu klintis (Kūķu Cliffs)

The biggest sandstone outcrop of the Devonian period in Latvia. There are rapids at the beginning of the cliffs with the relative decline of 0.5 m/km. Right beyond the rapids, opposite the highest point of the cliffs is the deepest whirlpool of the Gauja (about 7 m). The cliffs also have their own story: they got their name from the nearby houses "Kūķi", but "kūķu porridge" or "kūķis" was a traditional Latvian winter solstice meal. Might be observed only from opposite side of the river. GPS: 57.2741, 25.1066

### 11 | Līgatne cellar caves and cliffs

Many of these artificial caves (more than 300) were built already in the 18th century. People used to store food in them, but during the Tsar times the Līgatne Paper Mill used them to store paper. The secret of these caves is the temperature which remains the same both in the summer and in the winter. Caves are recommended to be visited together with a guide. Līgatne, ph. +371 641536169, 29189707, [www.visitligatne.lv](http://www.visitligatne.lv) GPS: 57.2335, 25.0396

### 12 | Svētavots (Sacred Spring)

A strolling park, in which you can arrange an excursion with a guide, has

been built around the spring. Wise people say that a person who bathes in the water of the sacred spring, brings water to the rest of the household members, takes it back again, and manages all of that before sunrise on Māra's day, will be free of all illnesses. Cēsis County, ph. +371 26385633, [www.svetavots.lv](http://www.svetavots.lv) GPS: 57.3045, 25.2338

### 13 | Zvārtes iezis (Zvārte Rock)

The sandstone rock and the slope with an observation deck is one of the most beautiful places in Latvia. Long ago on the nights of New Year's Eve, Pentacost and Midsummer Day witches and devils used to throw big rackets around the rock. Near the Zvārtes iezis you can go on a walk in the Witch meadow where secrets of wise women, ancient spells and herbs used in them will be revealed to you. Amata County, GPS: 57.2474, 25.1423

### 14 | Vējiņi underground lakes

A unique cave system with an underground stream and two underground lakes. These are the only known underground lakes in the Baltics. To protect the large underground cavities sandstone and Quaternary period sediment layer, the lakes can be visited in the accompaniment of a guide only. "Vējiņi", Straupe Parish, Pārgauja County, ph. +371 29354189, [www.pazemeszeri.lv](http://www.pazemeszeri.lv) GPS: 57.3398, 24.9071

### 15 | Gleznotāju (Parādīzes) kalns (Painters' (Paradise) mountain)

A very scenic place with a view to the ancient Gauja River valley. It has inspired such great artists as J. Feders, J. Rozentāls and V. Purvītis, and that is also where the mountain gets its name from. A great view to the Turaida castle opens from the mountain. Sigulda County, GPS: 57.1748, 24.8658 →

### 16 | Velnala Cave and cliffs (Devil's Cave)

Velna ala (Devil's Cave) is an ancient cult place and has formed in the cliff 8 m above the water level. People who know this place well will tell you that once, while sleeping in the cave, the devil completely blackened its walls with his breath. The next evening he escaped through the top of the cave and ran straight into the Gauja whirlpool where he still sits today and drags in the occasional careless visitor.  
**Sigulda County**  
**GPS: 57.1496, 24.8118**

### 17 | Keizarkrēsls and Keizarskats (The Emperor's Chair and the Emperor's view)

The place names originated when the Russian tsar Alexander II visited Sigulda. While waiting for the noble guest, an observation deck on the edge of the ancient Gauja River valley were built. The sovereign was delighted by the marvellous landscape and the place was named Keizarskats (The Emperor's view). Keizarkrēsls (The Emperor's chair) can be found nearby.  
**Sigulda. GPS: 57.1427, 24.8241**

### 18 | Serpentine roads in Sigulda

Till year 2015 there was the only serpentine road in the Baltics – popular place for romantic walks. It was built in 1862 along with the first wooden bridge across the Gauja in honour of the Russian tsar Alexander II's visit in Sigulda. Since 2015 there are two serpentine roads in Sigulda – one in every bank of ancient Gauja River valley.  
**Sigulda. GPS: 57.1699, 24.8305**

### 19 | Ezernieki karst sinkholes

This unique geological object is the result of karst processes when chemical weathering of the rocks led to formation of ravines, funnel-shaped sinkholes and two lakes, one of which tends to disappear under the ground from time to time.  
**Allaži Parish, Sigulda County**  
**GPS: 57.0850, 24.8111**

### 20 | Gūdu iezis (Gūdas rock)

The 250 m long and 18 m high sandstone cliff is often admired because of its resemblance to a stem of a huge ship. Story says: in the nearby Gūdas houses once lived a very miserly man who had promised his soul to the devil. The devil had dragged the man along with his bag of money into the deep whirlpool opposite the Gūdas cliffs. When passing this whirlpool, the raftsmen always offered up silver coins to safely pass this complicated curve  
**Might be observed only from opposite side of the river.**  
**GPS: 57.2494, 25.0047**

### 21 | Kalējāla (Blacksmith's Cave)

Some 20 years ago it was the longest cave in Latvia. Time has passed and previous record-owner has changed a lot. The cave is formed in soft sandstone rock and its entrance collapses time by time. Legend says – years ago there was a blacksmith who used to live in the cave.

**Raiskums Parish, Pārgauja County,**  
**GPS: 57.3795, 25.2629**

### 22 | Ainavu krauja (Landscape Slope)

One of the highest rock outcrops in Latvia offers a marvelous view to the

ancient Amata River valley. It is the tallest rock outcrop in Latvia – 46 m. The length of the cliff exceeds 500 meters. It reveals a great view to the old valley of the Amata River in all seasons.  
**Amata County .GPS: 57.2383, 25.1979**

### 23 | Cīrulīši nature trails

Walking and cycling trails of various length along the banks of the Gauja will teach you about the geological processes and changes which have occurred here since the Ice Age. These trails will introduce you to many interesting objects, such as Spoguļu klintis (Mirror Cliffs) or Vilka aiza (Wolf's Gorge).  
**Cēsis County. 57.3069, 25.2215**

### 24 | Rocks of the lower reaches of Brasla

At the lower reaches of the Pārgauja and Krimulda municipality borderline river Brasla there is a 2 km long section with 12 sandstone outcrops which are all protected geological objects. This route is not marked.  
**Pārgauja County. GPS: 57.2887, 24.9381 (recommended parking place)**

### 25 | Sarkanās klintis (Red Cliffs)

The approximately 10 m high sandstone cliffs, which uncover themselves in a 200 m long distance along the Gauja River, are also called Raiskuma iezis (Raiskuma Rock). Multiple springs flow from the rock, including the very popular Rūcamavots where many people draw water from. The water has a slightly unusual taste (the taste of iron is present).  
**Raiskums Parish, Pārgauja County.**  
**GPS: 57.3200, 25.2205**

14

### 26 | Inčukalna Velnala (Inčukalns Devil's Cave)

is a geological object and ancient cult place. The cave started forming after the ice age about five thousand years ago. A story tells that in old times, the Devil used to live in the cave, while under the cave, there was a cellar where the Devil had chained its lost souls. Under-ground water voices can still be heard in the cave.  
**Inčukalns County.**  
**GPS: 57.1266, 24.6438**

### 27 | Baltic Bonsai Park

The only park of its kind in Latvia. The park offers enjoying peace and harmony, feeling a breath of Japan when watching Bonsai trees, Koi carp fish, a spring, and slowly sipping Japanese tea in the tea-house of the park, as well as buying souvenirs and design items from Japan.

The nursery will introduce the visitors to the largest collection of hostas in Latvia (150 species) and in the flowering time will surprise with 300 daffodil, 150 peony, 400 lily and 80 waterlily species.  
**“Jaunrūjas”, Raiskums Parish, Pārgauja County, ph. +371 29488877**  
**GPS: 57.3489, 25.1134**

### 31 | Lake Vaidava

The surroundings of Lake Vaidava are a popular place for recreation and sporting events. It has a public and facilitated swimming place in Vaidava Village. Every July the oldest nationally organised sporting run (held since 1982) takes place around Lake Vaidava. Lake Vaidava stretches four kilometres and is as deep as 9 metres, so it is good place for fishing. Fishing is only allowed with a fishing licence which you can buy in the local Vaidava village store “Jancis”.  
**Vaidava, Kocēni County**  
**GPS: 57.4335, 25.2836**

### 32 | Gauja River Steep Banks

One of the most beautiful and picturesque places in Valmiera. The Gauja River Steep Banks are 80 m wide and 10 to 15 m high, from which one can observe the ever changing and majestic Gauja River and its other bank. Within the territory of the Gauja River Steep Banks also the Park of Senses is located.

### 33 | Līču–Laņģu Cliffs

Around 1 km long rocky cliff on the left side of the primeval valley wall of the River Gauja, which cannot be seen from the river. Its maximum height is ~30 m. The forms of sandstone outcroppings are very diverse: pre-dominated by more than 10 m high vertical walls divided by deep lateral ravines. Around 20 springs are flowing out of the feet of Cliffs, due to which caves of various length and hollows of various sizes have been shaped.  
**Priekulī County**  
**GPS: 57.3926, 25.3922**

### 34 | Lielā Ellīte (Big Hell)

The cave (also known as Liepa Hell) along with the spring has been a popular and significant sacrificial place since ancient times. The cliffs of Lielā Ellīte have formed from light sandstone and they attract interest with their unusual form – protuberances, niches, cavities and an arcade which is unique in Latvia. But the water from the nearby sacred spring is thought to be particularly healthy.  
**Priekulī County**  
**GPS: 57.3836, 25.4275**

### 35 | Ērģļu klintis (Eagle Cliffs)

The 700 m long sandstone cliff is the most monolithic sandstone wall in the Baltics. It is said that the sounds echoing off this cliff sound like organ, therefore these cliffs used to be called Ērģļu klintis (Organ Cliffs). Follow the walking trails, visit the observation decks, and watch the beautiful scenery of the Gauja River valley unfold before your eyes.

## Hidden in Noble Silence

This is your opportunity to savour the jewels that noblemen have safeguarded in the cusp of the forest for time eternal. Venture forth, rapt in contemplation, essaying your brush back and forth over the canvas, listening to the paint plotting its way into the canvas, and sipping tea in the manor garden, where you will hear the tick tuck of the venerable lord's clock.

We invite you to discover Latvia, travelling through time and enjoying the tranquillity of the historic residences of the aristocracy fanned by centuries of impressive history. The authentic hospitality of the nobility awaits you, along with the opportunity to step into the world of Latvia's nobility and to encounter its broad heritage, as well as to embark on a stately journey amid impressive settings nestling among painterly landscapes.

During your journey, you will be welcomed at the most important manor houses, castles and palaces in the Gauja region, offering fine dining and accommodation options, and an eclectic offering of additional services, ranging from tours recreating the epochs of the nobility through to scenic horse carriage excursions through the Latvian countryside.

Listen in noble silence!

### 68 | TURAIDA MUSEUM RESERVE

Lend your ear to birdsong and you will hear exhilarating tales of history, land and the people that shaped them. Peer out of the castle tower to be stunned by the primeval carpet unfurling in the forested river valley. Air pulsating with love will persuade of the nobility and courage of Rose of Turaida. Bask in the sublime harmony of beauty wrought by human hands and the poetry of nature.

## WILD AT PALATE

Thinking about Latvia's gastronomy in 2017, we decided to revolve our carousel of taste and colour around a mere twelve products. The products we have chosen reflect the annual celebrations in Latvia's ancient solar calendar – and the custom of putting on the table what is currently available in the forest and garden, to honour the bounty given us by nature. At the same time, they meet the Latvian Chefs' Club manifesto for contemporary Latvian cuisine "to create new recipes with contemporary utilisation of local products" and "diversify diet using seasonal products".

Latvia's gastronomy is multi-layered – just like our traditional layered rye-bread dessert. In exactly the same way, our plates have had German and Swedish, Polish and Russian culinary culture laid over the pagan natural heritage left by our ancestors, without ever overwhelming it. If we examine the gastronomic part of the eight main celebrations in the ancient solar calendar, they had one thing in common – almost everything that was put on the table could be seen just outside the window.

Of course, our chosen dozen will not be the only things that will be eaten in Latvia in a few years' time. Nevertheless, we are confident that focusing on twelve products will unleash the creative spirit of both professional and home chefs, will oblige us to explore in-depth the hidden talents of each of the actors in our play – and that this creative approach will continue to develop Latvian gastronomy generally in the future.

### SPRING

The year starts in spring with birch sap and maple syrup, whose just-tapped freshness lasts but a brief moment. The fermentation will result in a sweetly sour, sparkling libation to your liking. Just about everyone – not only gourmets – following winter hibernation, crave the first greens that sprout up – aromatic, succulent, crisp and chock full of vitamins. The season's first sorrel, leaf lettuce, rhubarb simply reek of the reawakening land's strength and vitality – an opportunity not to be missed!

### Rhubarb

Every Latvian household has a shrub of rhubarb, not only for its useful traits, but also for its looks. It is used in various gastronomical gluttonies – rhubarb pie, rhubarb jelly, rhubarb ice-cream, rhubarb chutney, rhubarb jam, rhubarb salad and a few dozen other delicacies.

### Sorrels

The first sorrels unmistakably indicate that the spring has truly arrived. Sorrels are used in many ways – in salad together with chives or rustic goosefoots, nettles, and dandelion, with cottage cheese, as pie filling, in lavish stews, and, of course, in soup.

### Birch and maple sap

The colder the winter, the sweeter the sap. It is used as a wine, sorbet, ice flakes, salad dressing, beauty compresses, and for detoxication – no reason to skimp on. You could also ferment it with a pinch of sugar, some raisins, and black currant twig, for your own champagne!

### SUMMER

Latvian summers are short but nonetheless full of gastronomic goodies that can be savoured in the right place, at the right time. Nothing provides more pleasure than tending a garden, venturing deep into a forest for wild strawberries or chanterelle mushrooms, or choosing a spot lake or riverside for fishing. This is how we can explain why all our desserts have cherries on top, why the kitchen table has jars of jams and jellies all in a row, why on our grills and in our smokehouses – ready to prepare, are the fish we have caught.

### Catfish

The largest fish in Latvia, it can reach up to 250 kilos in weight. To make catfish more delicate, one should leave a whole gutted catfish for two to three days in cold in order to serve a pinkish fish of light consistency. The fishbone can be used for making a strong bouillon.

### Sour cherries

The sour cherries are excellent for one's health, as, besides vitamins and minerals, the sweet-sour berries contain a lot of melatonin, which helps the human body to fight aging and insomnia. Devoted housekeepers insist that a jam or wine should be made just from the sour ones.

### Cloudberry

Cloudberry hides in deep and far marshes. However, if you are lucky to find them, they can be used in making of a honeyed jam which perfectly complements dessert cheeses or fruit salad. Despite everything, cloudberry is the queen of contemporary forest gastronomy.

### AUTUMN

The beautiful and scrumptious pennybun mushrooms, just waiting to be picked, and sauteed in a cream sauce with the new crops of potatoes. Or how about the abundant quince [The quince is the sole member of the genus *Cydonia* in the family *Rosaceae*], that yellow fruit perfect for syrups or candied peel (succade), in the teapot, on a plate with game meat. The Latvian hunter – eager and enthusiastic, to say the least. Deer and moose on the loose are merely 'value added' to the cherished moments spent in the wood and brush, the invigorating air. And – a post-hunt feast tastes even more delicious.

### Cydonia

The hard, golden fruit named quince or cydonia is known as Latvia's lemon. It is referred to as one of modern Latvian cuisine's trademarks. It is utilized in marinade when cooking lamb, a tangy additive in homemade sweet wines, and for jams, served with select cheeses.

### Venison

Deer parks in Latvia are abundant and impeccably managed. Venison is perfect for a seasonal stew, or in select restaurants as tartare or steak. A venison roast – is there anything more appropriate for a holiday meal? Perfect for Independence Day on November 18!

### Penny bun

Latvia is a mushroom-picking nation, and the penny bun is considered the ultimate prize for those venturing into the woods. You can simply sautee it with butter, braise in cream with young potatoes, sun-dry, and so on. Just remember – the penny buns you pick yourself – taste the best!

### WINTER

Cold and damp weather in Latvia results in fare that is rich and filling, with character. Simple but sturdy foods from garden vegetables and grains. Potatoes and barley, rye products – through the centuries are a reminder of home fires burning. But what about the rowan berries? Beautiful and mildly tart – for a real taste of life.

### Rye bread

It goes without saying: nowhere on planet Earth the rye bread is more delicious than in Latvia, and it's taste is a result of our history, memories, dreams, and philosophy on the order of things. It's not surprising that rye bread is what every Latvian living abroad craves for.

### Rowan

Dried and powdered, the red-orange rowan berry is a subtle spice for various sauces and marinades. In jellies and marmalade it is an ideal accent for meat dishes or mild cheese. And as a liquid additive for your cocktail, it is the best that a berry can offer alcohol.

### Turnip

Making our noble contribution to the current renaissance in long forgotten herbs and veggies – we give you: the turnip, stupendous in stews! Or simply baked in the oven, but better yet – in a salad with smoked fish and nuts. The turnip – just doing what comes naturally!

## ENTER FAMILY

**“Dormouse, Do-o-ormouse!”**, a pesky buzz rings straight into the ear. Dormouse scratches his tail. The tail was wade awake too. The tail, fluffed up like an owl, tickled the Dormouse’s nose. “Oh, the cruel world! Why do I have to get up so early?”, Dormouse grumbles squinting his sleepy eyes at the fading rays of the drowning sun. “Whose squeaky little voice is that?” It is the Dragonfly sitting on the edge of the tree hollow and fluttering its wings. “Good morning!” “Good evening!”, Dragonfly giggles and disappears into the wind. Dormouse sets to his morning routine.

Dormouse, a cute, chubby little animal, is often mistaken for rat. To set himself apart from the rodent, he has nurtured the distinct talent all dormice have. Dormouse was good at jumping. Oh, and what a jumper he was! Swoosh – from a hazel tree onto the spruce, oh my, almost missing the home sweet home in the hollow. Last year, while visiting the family, younger cousins had pulled Dormouse into a competition. Nothing special, family members only. Nonetheless, Dormouse jumped a whopping 10 yards! The prize was a whole bag of hazel nuts. Yummy! Overwhelmed by the savoury memory, Dormouse licks his constantly-growing front teeth and thinks of a snack – a slightly bitter willow tree stick, or something of a kind. “Must move!”, he concludes. As usual, before anything else, he begins by counting the fingers and toes on his front and back paws. “Ten and eight. Enough for setting out into the night. But where should I go?
