

One of the most beautiful places in the Baltic States

Gauja National Park is the largest and oldest of the national parks in Latvia. The Park protects the rich nature of the ancient Gauja River valley and its surrounding areas as well as the vast diversity of plant, bird and insect species found here.

The origins of the ancient Gauja River valley go back more than 350 million years, but its current ravine-ridden terrain was moulded by the glacier meltwater at the end of the Ice Age. The Gauja, which is the longest river in Latvia (452 km), winds through the national park.

Today, the park is a place where legends of the past live alongside modern and cozy guest houses, restaurants and leisure spots.

Enter Gauja

Here you can enjoy the aura of antiquity in old manors and castles, receive a burst of energy at one of the ancient sacred places or experience the healing properties of the springs. You can also touch trees planted by kings, hear your voice echoing off sandstone rocks, let the nature trails carry you off into rich forests or enjoy exciting adventure activities.

Natural spectacles are the order of the day in Latvia's national park: whether impressive sandstones, gigantic rocks or mysterious caves such as the large Gutman's Cave - the richly forested landscape reserve has a few surprises in store for you.
