

Autumn in Gauja National park

As summer fades, Gauja National Park transforms into a golden masterpiece. The vast forests along the Gauja River glow in shades of amber, crimson, and deep green, creating a breathtaking mosaic visible from every hilltop and trail. Crisp air carries the scent of pine and fallen leaves, while morning mists weave a veil of mystery over the valley.

Autumn kingdom

This is the perfect season for hiking, cycling, or simply pausing to take in the panoramic views from castles, the sandstone cliffs, or the park's famous viewpoints.

Autumn in Gauja isn't just a season—it's an invitation to slow down, breathe deeply, and witness Latvia's nature at its most vibrant.
